	Test Fire Alarm System once phone is set up at the church. 5/13: What will monitoring cost? (Paul) 5/13: What do the schools pay for their service? (Don) 5/13: What does the town pay for monitoring service for other buildings?					3/27: Mike Ammendolia informed the committee that we can hook directly to Mendon Dispatch. Paul contacted Lawney Tinio to make this happen, and has since met with Custom Alarm. Stil have many questions to answer. 5/23: Paul updated the group that he had been in contact with the Mendon Fire Deparment and Custom Alarms and that it would cost -\$400/year to add monitoring to the existing alarm system. The group will not act on this at this time. Joe was in contact with the insurance company and while it is better to have the monitoring in place, having the alarm sound with no monitoring is bettet than nothing. 5/30: Don updated the group that he got in touch with Jay Byer and the cost for the schools to monitor their buildings is \$650/year each. Jay also informed Don that the two schools in Upton are connected directly to Upton Dispatch, so no monitoring fee is required. He said that Mendon has a grant to upgrade its dispatch center after which time		b) In the number where the open to get the dama party monitoring company. Paul will check to see what it would take to make this a direct line to the Mendon Dispatch Center. 2/27: Group agreed to take this issue to the BOS to see if a direct connection to Mendon Dispatch is possible. 3/20: Don and Joe asked the BOS if they could find out if the new library could tie directly into Mendon Dispatch. The committee is awaiting an answer. 4/10: Paul has been in contact with Lawney Tinio and Lawney believes that the fire alarm system in the former rectory can be added to the existing service currently used for the Town Hall. Paul will set up an appointment to get the system set up and tested during the next week. 5/13: Paul met with Custom Alarms and is working out a possible solution. Many questions need to be answered, can the panel be reprogrammed? Do we need a second phone line? What type of monitoring does our insurance require? How much will monitoring cost?

Joe suggested a payment schedule for the OPM of 25% when we get the architect, 25% after the drawings were received, and 50% during the construction work phase. Dan suggested even less up front, and Joe stated we may just have a flat monthly payment plan over the course of the project. Nothing was agreed yet, but Susan stated that she has enough information for Linda to get the funding started. 5/13: Joe created a timeline for funding needed. Susan will provide this to Linda Hawkes.
