Total	Contact Tim Watson to find out what type	requestion	T GISON	- подиной		the architectural firm on board so we can get their engineers involved. 11/25: Mary spoke with David Eisen of Abacus about getting their engineers involved with this as soon as possible. 12/11: Abacus/Situ will begin to investigate whether the new library needs a public water supply. 1/9/14 - Abacus is working on this with their civil engineer; we should expect an update at our next meeting with Abacus. 2/20/14 - Mary has recently spoken with David Eisen of Abacus about getting their engineers involved with this as soon as possible. Abacus/Situ will begin to investigate whether the new library needs a public water supply. 3/11/14: Fred Lapham of Shea Engineering is pursuing this for the Committee. 3/20/14: This item will be revisited once the Public Water Supply topic is resolved. 4/8/14, 4/22/14, 5/6/14, 5/12/14, 5/22/14, 6/2/2014: Nothing new to report. 6/24/2014: Now that we know we won't have a Public Water System, we need to determine if the Town wants to perform water testing. 7/15/14: The Committee received the following from the Water Commission: Once the new library is up and running it would be handled as some of the other public water supplies are in town; for example the town beach, town hall campus, etc. These come under the authority of the selectmen with the water board doing the testing and reporting. The water dept. is then compensated for these from the selectmen's office. We would have to do the same for the library and be reimbursed by the library trustees or whichever	Batte Polite I Gu	Общиона

Paul contacted Lawney Tinio to make this happen, and has since met with Custom Alarm. Stil have many questions to answer. 5/23: Paul updated the group that he had been in contact with the Mendon Fire Deparment and Custom Alarms and that it would cost ~\$400/year to add monitoring to the existing alarm system. The group will not act on this at this time. Joe was in contact with the insurance company and while it is better to have the monitoring in place, having the alarm sound with no monitoring is bettet than nothing. 5/30: Don updated the group that he got in touch with Jay Byer and the cost for the schools to monitor their buildings is \$650/year each. Jay also informed Don that the two schools in Upton are connected directly to Upton Dispatch, so no monitoring fee is required. He said that Mendon has a grant to upgrade its dispatch center after which time the schools might be able to dial in directly. Jay will update Don when he learns more. Marshfield Fire Station document was reviewed on 2/13. Joe Cronin took action to revise this document for the rest of the committee to review on 2/27. 3/27: All committee members can now access their town email accounts so we will use them for all future business pertaining to the building committee.	5/23/2013 2/13/2013 3/27/2013	monitoring company. Paul will check to see what it would take to make this a direct line to the Mendon Dispatch Center. 2/27: Group agreed to take this issue to the BOS to see if a direct connection to Mendon Dispatch is possible. 3/20: Don and Joe asked the BOS if they could find out if the new library could tie directly into Mendon Dispatch. The committee is awaiting an answer. 4/10: Paul has been in contact with Lawney Tinio and Lawney believes that the fire alarm system in the former rectory can be added to the existing service currently used for the Town Hall. Paul will set up an appointment to get the system set up and tested during the next week. 5/13: Paul met with Custom Alarms and is working out a possible solution. Many questions need to be answered, can the panel be reprogrammed? Do we need a second phone line? What type of monitoring does our insurance require? How much will monitoring cost? Where will the funds come from? 2/13: Amy provided Request for Designer Services from the construction of a Fire Station in Marshfield. 2/27: Some have had issues with this. They will seek tech support from JNiro@ Worldband.com. 3/20: A couple of members are still having problems logging in. Everyone agreed to take care of this.
